Dakota

New Rototiller

To jumpstart this year's garden, Robert HAD to buy a new tiller! In the 43 years we have lived on Redwood Road, only once did we not have a garden (due to drought.) This year might have been the second time if he hadn't replaced his old, broken tiller.

Celebrating From Afar

Brex turned 17 on May 14th in another country this year. She is just about to finish up her studies in England and then she and Kathy will meet up to spend time in Europe traveling and exploring before heading back to Lake Oswego.

Dog Dancing Winners!

The results from the March dog dancing competition were announced at the end of April. Both Brooklyn and Dakota passed their dance routine submissions receiving 135 points each. Our team (Team Osborn Tänzerinna) now has 673 points toward our goal for a Dogs Can Dance Championship. We just need another 300 points which comes out to three more routines to submit to challenge events. Dakota's submission was from a video I made of a routine we did before she passed away. The routine I am working on right now with Morgan is about 75% finished and will be entered in the next challenge in July.

The Puzzle King

Robert worked a lot of regular size puzzles before jumping into putting together mega puzzles. This is his fourth one at 5,000 pieces, a puzzle Kathy and Rylan gave him. Rylan picked it out.
